"With Norman Mailer, it was sort of unfortunate. He wanted to find black things to represent 'his' Oswald. Unfortunately, we didn't see eye to eye... and I just didn't want to figure to give evidence against Oswald in that negative way because it wasn't true, you know? Never for a moment I believed that he was capable of pulling a trigger at a president whom he loved, admired." Dr. Ernst Titovets

Lee Harvey Oswald's closest English-speaking friend when Oswald lived in Minsk, then part of the Soviet Union, from 1959-1962. "Erich [Ernst Titovets]...is my oldest existing acquaintance...a friend of mine who speaks English very well..." as Oswald would put it in his Historic Diary. In his book Oswald: Russian Episode, Dr. Ernst Titovets investigates the Russian period of life and activity of Lee Harvey Oswald, the alleged assassin of JFK. The book is based mainly on the author's first-hand experience of knowing Oswald. It also includes the author's interviews with many Russians who met Oswald, there are documents with Oswald's longhand never published before, unique transcripts of the audio recordings of Oswald and Titovets reading stories, enacting plays, giving mock interviews to one another. The book presents a culmination of the Author's painstaking research conducted over many years to reveal the true character of Oswald, a close-up of this still largely misunderstood man.

[00:00:00 \(https://www.youtube.com/watch?v=rr66UmrYnuM\)](https://www.youtube.com/watch?v=rr66UmrYnuM)

our next speaker is the head of the scientific research group the National Research and clinical Center for neurology and neurosurgery in Minsk Belarus he's the author of Oswald Russian episode in which he accounts his his experience as Lee Oswald's closest and only english-speaking friend during Oswald's time in Russia it's an honor to introduce dr. ernst toot-toot Ovitz thank you Jim Lissa Andrew Craig and Jerry Polly table for making possible for me coming over here well you know I like the still living witness under this name we are just figuring in the here implication being made haste to watch they might kick the bucket any time well in my talk Archer divided into sections first rather boring social political views but it's a short one Lee Oswald I believe that's the way to understand his ambition what makes him tick and then I'll talk about him as the person as a

[00:02:00 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=120s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=120s)

I'll talk about him as the person as a man I knew and well let's revisit the sixth age the time he was in Minsk to introduce a timeline he came appeared in Moscow in 1960 a little bit before 1819 years he was born in October 18 1939 and he turn up in Moscow just before that date so he was still 19 and then they turned 20 just you know the kid unleashes infatuated with marks in that part of that teaching very complicated teaching when he spoke about affluent society of equals all those things naturally I doubt and we had many debates with him on sociology I doubt if he had academic background on that well so he appeared in 1960 in Minsk he already lived since January 6 1960 and left in 1962 already with family wise and daughter well I met him

first in nineteen in autumn 1960 and our nine each other lasted till his very last days actually my letter last letter to him they was dated October yeah October whereabouts October 1963 well that's a timeline unless the first place here okay now well you know what he came back to United States with you know with

[00:04:08 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=248s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=248s)

to United States with you know with quite an impressive works in thesis form the names the collective life of Russian work speech especially on the other far-right on communism and capitalism the Communist Party of the United States the Athenian system then he appeared on TV already in New Orleans on Latin listening American focus well all those things are given here he Jesus College contemporary politics and practice of communism and in all those appearance he demonstrated that he was a competent agitator he used if you listen to what recordings he well of his appearance in Latin listening post he was quiet a inborn rater with all those rhetoric approaches like reputation contrasts all those things it was in born in him and he came with the theory the crisis theory the theory of crisis and in this theory he's very much revealed here wearing all he thinks about no okay well his stress is what I'd like

[00:06:07 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=367s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=367s)

no okay well his stress is what I'd like well it's just agreed that what I just want to say here we are not we have no interest in violently opposing the US government it was a very peaceful person and preparation in a special party well he believes in color crisis at the time crisis is very possible one possibility was atomic war with some other crisis and he believed that people wouldn't wouldn't want to go on living under the old system they would just turn to something better it was a very naive theory but it was just logical in his own way then well so I like this non-violence it's very important here then implantation well emplacement of a separate Democratic pure common societies our go well this commonly society is just appalling and menacing especially at that time to American audience in time of peak of cold war with Russia and in possession of nuclear weapons situation when World War three would result in humanity being annihilated from the globe so and he meant actually that affluent society that he was fancied in his head and again a truly democratic system should combine the better qualities of to the two socialist well on American Foundation opposed to both and the both world system capitalism and

[00:08:01 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=481s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=481s)

and the both world system capitalism and socialism as they are now that is our idea you see it's quite a program he came to Russia fascinated with socialism got disappointed and still he took a rational approach and developed a new theory that's he called the Athenian system when he combined the best of two system based on American soil so to rather take him series why is his well has special meaning to me we had debates with him sort of spontaneous I wasn't interested in politics at all it was absolutely boring especially in the atmosphere and dr. nation at that time when dr. Natick at the university school well that's you know Toto indoctrination but I sense interest in him and in when we have two only two of us at his place somehow we started comparing all system starting with slavery feudalism capital in Socialists when he came to socialism well he put onto me I was very insistent that socialism was the best in all we don't well youth in our states your lynched [___] you know it's Q Cox clan there's unemployment things well he objected and here in our country will have no influence we have high education free we have we have well and I said you know you don't know exactly how it works you're being influenced but by your upbringing and when I went on being insistent and he said he fled Apple said you live here like slaves you can't

[00:10:00 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=600s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=600s)

you live here like slaves you can't travel well there's something that rang true in what he said and at that time well and again Lee he would flare up and but then he'll just come back calm down and he was considered he said you can't you can't well sacrifice one system for another so although he was rarely disappointed disappointed will be socially system because it betrayed him best about this country he's still so rational viewed irrationally and decided he by the way he was very patriotic and here it shows when he decided to

adopt a better system for American for America that he belonged to so the serie crisis and if you consider also from this point of view it is please why I came to United still to Russia in the first place why he came back he said well standard of living in United States better and I went family and daughter and everything and he went on organizing well I view this you see this party clothes here and I've used is this very playful committee as his attempt feeble attempt to make myself visible which he did actually and he might have well transferred this well turned it into his special party although you know there were no membership in there but it's only at the beginning and along the line of his thinking it was very rational and again he mixed with all kind of people

[00:12:00 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=720s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=720s)

again he mixed with all kind of people it's not surprising because he expected to find support of skills theory is united unifying theory in all layers on society within all believers and we find this actually researching his life now by the way what he writes about life of Soviets worker he learned by hard way here two pictures Oswald's in group fellow workers they taken conceptual one way one decision here they having found with those dark glasses that was a little bit outlandish at that time and they impersonating foreigners and best of their abilities they're just hilarious you see this laughter and everything here and but snatched out of context you possibly you saw that possibly have this CD look is inserted this part of Oswald posing as sort of well sort of criminal with Douglas and everything well adding sickle and Hammer well mo color while KGB badge and here you have the doctored image of Oswald unfortunately that's the only way since only way how well things were taken out of context and turning to what we have now well that's the final thing you know that now I'm just you see

[00:14:04 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=844s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=844s)

thing you know that now I'm just you see her smiling Oswald that's the man on you I just you know this found a picture there on the web well Oswald's the kid and Marines and cause Walton means that's realisable you know he was full of humor and clever and that's how I well per sailor this character well here just well surrounding it what city he lived just well he lived actually here a very beautiful place this Swiss luxury well it's not navigatable navigable although in some literature you would find that although stood and the balcony is flat here watching the ships passing by actually you can wait just park area this is the headquarters of the Bell Russian military region a conveniently placed within sight of Lee Oswald if you wanted to watch the activity around there an activity for spies were important no the cars are arriving he would observe the in signature the numbers the numbers of card activity that's very important information for spy things that a spy would be interested in well actually this picture is taken from Opera House

[00:16:00 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=960s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=960s)

this picture is taken from Opera House Oswald was found in Opera actually immediately after we introduced each other the very bus stopped and he suggested going to Opera House and actually he got a good pitch and would just sing tunes when asking to well again here there is a Institute of Foreign Languages over here dormitory where mostly girls who went in English to leave his work this radio Factory here so I very carefully thoughts environment for him he could be observed by the KGB he lived he had no point of living this area on the whole well I lived very far from there incidentally all the other spiral gallery chopped and I'll just next slide oh no it's me lived very close by marina whom he had married within five minutes reach work ten minutes through all this me what I'm giving here is rent Oh No is anything interesting yeah yes that's interesting that's what he gave in his historic diary about me he well it's a very he doesn't write much about anybody here but I I'm given sort of prominence here by three or four references to me among here well a medical student that's

[00:18:01 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=1081s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=1081s)

among here well a medical student that's correct ah speaks English very well all right for the ax student Bogota trade you are - Dermott free arise here it's an important occasion for him we go to a trade union dance when he met marina his future wife and was there aha here when his alone I am earnest it's Erik Russian don't discriminate between families and Eric to go to the dances at public places on hair is interesting one well when he told Eric my coat is this acquaintance and that I'm going to the stage he is okay but his I afraid he's too good a young homeless man League member I'll wait till the last minute it's a very interesting admission the first place I knew from the very beginning that they were going to the States first and they says knowingly this is the way of protection he extended his protection to me because if I had no idea that he was going abroad as a young Communist League member I certainly couldn't influence him to stay here and he's not well if you remember his letter to Robert there's the same motive there he says I don't cite it exactly but the essence is I you don't own me right about my conviction and everything what am I going to to Russia and he rises because I wanted to protect you you say the same scheme here he protects me he protects his brother and we'll say ideological grounds very kind of well

[00:20:04 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=1204s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=1204s)

ideological grounds very kind of well yeah just to get in the picture my activities that time music Here I am reading the Daily Worker him working at the students Research Center going for sport well I'm just posing as a in my belief and American would sit in a ring newspaper it's grotesque well I never saw Americans there but still my friend was taking this picture no well we lived in time the Cold War lead well shooting range and me surely again at shooting range you know we promoted to junior lieutenants on completion completing Medical Institute we got military training because at a time Cold War it was joking affair and everybody got melted education decent that level so that's a reminder of the Cold War and his friends well that's his first love it's a very important psychologically Forli he met her the factory fall in love fall in love fall in love and he said no when he suggested to marry him although he believed it would be yes and when he met marina later on he still was in love with other German and he writes so in his diary he has only gradually forgetting her well marina was just a pretty face

[00:22:01 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=1321s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=1321s)

well marina was just a pretty face that's an interpreter well okay to be I'm sure that said together in his room in some literal shall find that he lived in a lavishly furnished room well that's how lavish it was and just do table and here again his lavishly furnished room and paddle the lower jaw of he mentioned him in his dearest son over twice hero of Soviet Union that was important to him that and he was a KGB informer self-confessed KGB informer here the Segas family the spanish-speaking Segas family Alexander the head of the family work as a radio plant he spoke well sort of broken English with American absent and I was introduced to Lee at his a family it's the senior his wife Anita and this is Leonor with beautiful self well soprano mezzo-soprano she worked at Philharmonic Society and here Lee camping campfire well that's he led quite and enjoying enjoying his life there he was fond of fishing and here is with a fishing rod standing there now among his acquaintances many of you might recognize chairman Khrushchev there next to him sits professor Curtis

[00:24:00 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=1440s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=1440s)

there next to him sits professor Curtis aha she taught at the Russian State University and conducted experiments classified experiments at nuclear reactor well influenced in railroad doses of radiation continuous evasion on organism a very important experiments somehow they met her son and she told him about what kind of research she was well we went into although in her position she had no she shouldn't have mixed with foreigners a person conducting classified research had no right and they signed certain papers to the effect that they are where they must not get in touch with foreigners she did so it was another well attempt to be to find these interest would be interested in that secret information then well he is happy Lee that smoke oh that's marina pretty face happily in daughter June it's about daily living in Moscow about to leave back to the States after all official red tape was completed and all the papers and everything yeah

you know there's a question arises some people say then he didn't speak Russian while speaking in in means because he was suspicious as KGB would suspect him of being a spy I see no logic in that but that's it little what you find in literature and here he writes about the in Russian

[00:26:05 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=1565s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=1565s)

here he writes about the in Russian about the names of his still unborn child so it would be June if it is a girl actually it was a girl and David Lee if something another name if that would be a boy by the way I was very fond of children you know there's some kind of people who accept his children at very early age at that time we were the same age I couldn't see kids his way I saw they were just lobbies well nuisance it's only when you grow up you appreciate those absolutely marvelous creatures you know with all their traits with all their okay you have to take care of them all those troubles you appreciate them so he did speak and write Russian here and here we have on living on May before leaving I came to see him last and he in the first place he took off his ring at the end we are all workers at the plot a radio plant and Provident to me I said listen Lee it must be an expensive thing keep it you might need that that was my idea and those books the power of positive thinking and as the man things one of my normal wins at peace I know many of you know these books they set your mind to peace and he needed that kind of support before finally handing

[00:28:00 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=1680s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=1680s)

kind of support before finally handing in them to me he thought out the inscription of that so I don't know who inscribed that it was in small hand long hand rather impressed these books are still with me and here well.here phonetic symbols I started his accent actually I minded him being American you know with my English background we should work out a rather look forward to meeting and English British speaking oh that's my no deviation but still I have a southern American it was not an erotic and he spoke pretty close to British standards you know and I studied his thoroughly his English well his diphthongs I discovered that he would say ask the rest instead of past I was surprised at first and later on I found out it was colloquial in New Orleans so no problem about that and yeah well then I asked him wrote this prayer for me now I lay me down to sleep I pray the Lord my soul to keep if I should die before I wake I pray the Lord my soul to take god save I'm up for it cetera I don't know how it came but he put it down for me I was happy to get anything from all information from him here again Old Man River you know it's from the Showboat and sang by Paul Robson in Russia he was very much celebrity in Russia he spoke Russian he sang in Russian the

[00:30:00 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=1800s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=1800s)

Russian he sang in Russian the recordings by melodia and here ask him to give me I had the song I knew the tune Old Man River all you know that it's don't say nothing it just keeps rolling and it keeps on rolling along it's about the gray segregation you know the plot by the way Paul Robson changed the world when it says I am scared tired of living and scared of dying he changed I keep on fighting till I am dying that's Paul Robson version in Russian oh you know it was white well here is a note I don't know how kept it I thought it but in between the pages of a book every I can't make it today please please come again set etcetera well that's the lodged prayer ah and I made two sessions recording of his American English first it was at studio foreign language Medical Institute they have foreign language department there I was actually I passed my English exam and the very very first year I didn't want to waste my time attending those English lessons embarrassing teachers you know and others had to go for more years they knew me Ahmir the department I'll come out there to chat English with them and said okay and they just examination board they asked me to read well bling house by Charles Dickens

[00:32:00 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=1920s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=1920s)

well bling house by Charles Dickens absolutely boring first chapter later I learned why they gave me that because the teacher studied that at the foreign languages well we just talked about this and and they were quite satisfied I got talk grains and that's the end of it and well they're two tapes to suppose first at the Medical Institute and then at my place only to there and what interesting but I asked him to read from

literature then asking to repeat certain things then he would just start ask me to execute military drills exercise from there by the way we had an argument about military drills you know turned out that about-face is different in the United States and in Russia and I was surprised I thought it when they were the same in both countries but wasn't so and we had a very heated discussion by the way whenever we would come to comparing a great American and Russian we will absolutely be divided polar he would defend American values and I would Russian values if concerned girls it can solve the drills by the way with those about-face drills we carefully went through all the movements and Oswald although he didn't give up said okay I like that he would always find

[00:34:02 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=2042s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=2042s)

physical violence he was also you know examples in my well I don't know why we came to that I interviewed him about your last killing well there was a young girl under a bridge you came in carrying a loaf of bread and I just cut her throat from ear to ear what I wanted the loaf of bread of course and what do you think to be your most famous carrying in your life well the time I killed eight men on the Bowery sidewalk they were just standing there loafing around I didn't like their faces so I just shot them all with a machine gun if it was very very famous there all the newspapers carried the story thank you very much and some do you it's all the same to me I don't know they're going to execute me tomorrow anyway well you know he's a very famous killer zero deserve his electric trap well they're coming to get me now I have to go

[00:36:04 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=2164s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=2164s)

they're pretty man the channel we officers approaching the stand is raising his arm he is taking about the switch last word well well it's Lee all over you know there are two parts of this interview before we read he read from Hemingway rather from the book foreign language publishers and collecting even modern American stories rather somber ones it was suddenly it was political orientated there would be killing there assassination everything and possibly that would influence why I came up with this absolutely nonsensical stupid interview it could be accepted only in the atmosphere of the two kids young men falling before microphone but what I drawing at the front front well the the public TV front line they asked me for those recordings and they just cut the second part of that and they completed that we are laughing our heads off so after all those atrocities were laughing our head off that was kind of possible was well absolutely well in human person another way of doctoring and setting out in contact by the way Norman Mailer why he plays and again this first part of the book he had no rights legal

[00:38:02 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=2282s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=2282s)

of the book he had no rights legal rights then he never approached me to have permission to write it he again use only the first part of that his idea of Lee Harvey Oswald so you see there are very many examples when image dr. Lee being absolutely well misinterpreted to a particular hit a particular well order I have put this way well on purely personal ratio just state races downstairs well who get who reaches the ground floor first well hello just when we are alone who would start the sort also the frolic would start investigating closed-door for me just so soft food into that crouching looking through a keyhole as if expecting something to disturb 'hi that door he would open the door in a photo would find a mop and bettered been a dustbin there all that in sort of theoretical way he was very prone to those effects and amusing people when there was nobody around I doubt if anybody knew his side in him well and finally oh that's his notebook with my address in here here my last letter to him I asked him well he wrote a letter to me telling me informing me that they would be coming back to Russia I was surprised at that but I was happy I would be happy to meet him there and I asked him to oh yeah before I asked him

[00:40:01 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=2401s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=2401s)

asked him to oh yeah before I asked him to bring two books research books for me that I couldn't find in Russia and he his response was I will and possibly I'll hand them to you by hand on coming over and it turned out to be the loss my last letter to him by the way if you go by a number of messages he wrote more

messages to me than I did well in I was an impression that I was sort of important for important for him well we apart from political debates we had a philosophical debate and I discover he wasn't academically prepared to discuss that in you nothing but fair about you all those philosophers but when I came to notches down and explain things in a simple way it was about idealistic materialistic approach to reality he immediately got the grasp and it was very active it was a very naturally very clever guy well in some from the very beginning he was timed with being a sort of loose screw loose you know kind of that sort of person it came from American side first it was a suggestion suggested for the Russians how about you know we have information that he was mentally in this balance the Russians were happy to pick it up and it was an explanation you know he's a madman was a madman well not responsible for that by the way commonly think coming to these sanity issue certainly he was absolutely saying that's not my only my conclusion I had

[00:42:02 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=2522s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=2522s)

that's not my only my conclusion I had my course in psychiatry very interesting course by underage I doubted my own sanity but I won't stay alone when he had a therapy course I we would find all sort of diseases of those well all medical this would pass all that and we see he tried to commit suicide actually it was a staged suicide it was it was real and this would be would have been an excuse for Russians to get it out of the country a very rational approach just to inform the amber say listen your countrymen is well try to commit suicide it's a very serious as I get a case because his next time his aggression might have been directed outside and he wouldn't be responsible for that the Russian Russian side actually I say caressed interviewed him throwing interpreter in the first place it is absolutely impossible to get in touch with a patient through an interpreter so there was no trust between the two and they when also said that he was sorry about that everybody was happy and satisfied so instead of doing this absolutely irrational gesture especially in time of Cold War you see where you'll care about your well visitors you know please take him away we can't make out whether he's crazy or not no they just let him be here because the kitchen akansha be needed him there I'm sure they knew about his atsuki experience about you too you know that you too if they would fly over so to union unreachable and collecting a lot of information thank you and well that

[00:44:11 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=2651s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=2651s)

of information thank you and well that is my group over my book was still available here and here well already after the collapse of the Soviet Union normal Mahler came to researching after his Oswald's tail this is British researcher well Barry Penrose were discussing issue which by the way here it's really exactly early in spring I met Anthony in Moscow and he inscribed this book for him it was just out of print and I only recently realized that I was holding this book well with Norman Mailer it was sort of unfortunate he di didn't give in to you because he wanted to well find black paint to represent his Oswald well though that is my book so unfortunately we didn't see eye to eye on Oswald and just didn't want to figure to give evidence against Oswald in that negative way because it wasn't true you know and and here's the book which is well we'll sell a few copies there and here with the five minutes warning thank you

[00:46:07 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=2767s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=2767s)

question is you were you were in the company of other comrades other people who were friendly with Lee Oswald you had a community of friends and you all knew each other and you had recreation you had conversation my question is after the news of the assassination and after the news that the person being declared to be the one responsible for the murder of the president could you tell us just for a moment about the conversation that they've existed between you and the other members of your community who had known Lee Oswald what was the consensus was everyone astonished well you know nobody believed in a yeah and about friends you see looking back I remember only a few occasion when I spoke Russian in his presence mostly we certainly we spoke English and one time he said Russia's around is that oh don't speak English it's impolite you see so we all spoke Russian and for their friends you say K should be debriefed all people who knew Oswald under different circumstances and the the idea was forget about all world here in country or else and you know when I started interviewing people already after the collapse of the Soviet

Union I would ask for pictures and everything they said oh we burnt them and you and I burned that I spoke them I to our head yet everybody burnt their pictures and they decided that was the real also deep ravine debriefing so well KGB office

[00:48:04 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=2884s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=2884s)

ravine debriefing so well KGB office without much imagination I never it never came to him them somebody would start interviewing people and I would discover that with all going for this in senior ability business I kind of a two-part did you were you convinced that Oswald really was a defector or maybe had a was perhaps there on intelligence mission and do you believe that he was an assassin no as I already said and invade never for a month I believe that he was capable of pulling a trigger that president whom he loved admired then in his crisis theory it stresses the nonviolent way of reaching his goal it's very important sometimes it looks to me that researchers I don't know on what grounds they ignore that very telling part of his activity can you imagine just a school dropout getting to the country now I'm convinced he get especially to get first-hand experience of the country had no other way to learn socialism he couldn't afford studying the going through Lee hire well college and everything that was just the most the correct way and imagine this dough out coming with a theory with those works in this is way that's you know all respect as a think I wouldn't slight that information yes yeah yeah thank you

[00:50:00 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=3000s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=3000s)

that information yes yeah yeah thank you very much for coming here for your wonderful presentation thank you my question is did mr. Oswald ever confide you about his briefings or his meetings with the American consulate you know with Richard Schneider or McVicker he never discussed his Moscow experience nobody but when he came to the stage he wrote to me that to FBI officers came over asking a lot of stupid questions somewhere here was information that he wasn't approached by intelligence community people well if you consider this well FBI people sort of community intelligence he was impressed approached I was fascinated thank you that he wrote you not too long before the assassination apparently saying that they might come back to Russia or that they were going to come back to Russia can you tell us exactly when that was and did he mention his trip to Mexico or his attempt to go to Cuba in that letter mm-hmm you know going by his letters I gave it in full in my book he was worried that something my impression was here as far as something would happen either to him or his family and he desperately but they applied for return to the third Union it's documented and Warren Commission report was an he desperately trying way to get out the United States fast and in my thinking approaching well trying Cuban angle was chased by the way he wrote consider this application possibly separately prefer my wife so he even considered situation when she would go and he will go separately I thought he suspected some Menace and

[00:52:03 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=3123s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=3123s)

I thought he suspected some Menace and he tried to Cuban angle who tried to get his visa it's right that way then his his request or his response to your request regarding the two books that you wanted was that October 26 or 28 see my book called phrenology is my book right I kept all the track and while of his letters and that they did with addresses and everything yes I was unclear whether whether or not you knew Rosa Kuznetsova could you tell me what their marital status was we she single divorced or well Rosa Kuznetsova she worked at the interest department as a job was to meet foreigners see them about Oh attend to her immediate concerns about seeing them around telling about city she spokes British accent I rather well I thought much about my English that time you know well and like was she previously married she was was she previously married well she wasn't married as far as I know sure she was single just a pretty plumpish girl and when I researched my book I was I started looking for her and surprising thing was the very at that time she was at the intensive care department two stories high over my laboratory and she died of meningitis herpetic meningitis you see and I was looking for right now oh I read Norman Bayliss book Oswald's tale I wanted to ask you when you knew Lee Harvey Oswald you know in Minsk did

[00:54:00 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=3240s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=3240s)

Lee Harvey Oswald you know in Minsk did you ever suspect that he was gonna become this great historical figure he was who would come he would become this very important historical figure well it's a normal person I never suspected that and I had never had possess this historic four sides many years months before at that time there was no Kennedy around he didn't exist especially behind the Iron Curtain and we I wasn't obsessed while researching quite book I wasn't a brace obsessed with those conspiracy theories and we had two young men I will just well the Scot sayings learn things first I thought it was a very important I don't know how come he turned up in this country I thought it was a very important person or some exchange business and I thought him as a very educated with higher education worst in literature music and gradually I cut him down to size I thought he wasn't any of those things but still he was a good guy and important saying that we had a kind of psychological compatibility I never felt myself well you know sort of under pressure in his presence when you're in presence of a neurotic person you immediately feel sort of tension you know and that's first time yep I believe that Lee Harvey Oswald was an American Hero and I said so in my two-page spread ad in the New York Times thank you thank you July 31st 2007 question and I have a copy of that yeah last question thank you and just a one-word answer your opinion on a scale

[00:56:00 \(https://www.youtube.com/watch?v=rr66UmrYnuM&t=3360s\)](https://www.youtube.com/watch?v=rr66UmrYnuM&t=3360s)

one-word answer your opinion on a scale from one to ten how good was Oswald speaking Russian well I would just that you judge that I'll imitate his accent as a Russian would appreciate perceived that a good sound would sound like that well I speak Russian very well I can read Russian newspapers understand everything you say that was sort of accent I didn't care about Russian accent I was well satisfied speaking English although I rather I would advise him to somebody to work on his pronunciation but I never did thank you let's take doctor to Table eight

END
